FELDENKRAIS

JUDY KILEEN

The Feldenkrais Method offers a novel approach to pain relief treatment and disability. Feldenkrais uses our nervous system’s capacity for self-organizing and self-regulating to improve the quality of our actions, a process called neuroplasticity. Improving movement quality allows the body to function more efficiently. This efficiency creates environments for chronic pain and injuries to heal, and opportunities for athletes and others to excel. Judy Kileen has had a private Feldenkrais practice since 1996.

LIFE COACH

BRETTE KEY CAMPOS

LIFE COACH

As a life coach, Brette Campos recognizes that all three parts of self – mind, body and spirit - can be equally cared for, maintained, and balanced under one guide. Our emotional reality can dramatically affect our health so it is very important to have healthy emotions. Brette’s expertise helps people overcome emotional, physical, and spiritual challenges. Brette combines ancient practices and knowledge, such as prayer, reiki, meditation, yoga, chakra balancing, aromatherapy, and crystals, with modern tools such as magnets and emotion code to help people create balance between their mind, body, and spirit. Brette studied Environmental Studies at the University of Redlands and received her Bachelor of Science in Sociology from Loyola University.

SERVICES

A variety of self-assessment and healing techniques will be implemented in your coaching session to aid in bringing balance and focus to an established life path or create new goals and direction.
